FOR 2025

NEW GRADUATE PROGRAMME

As a new graduate at our **independent practice**, you will be working directly with the practice owners and decision makers who can respond quickly and flexibly to your individual situation. Our programme provides the resource and support to ensure you develop your clinical skills, gain the confidence and trust of your clients, and grow your area of competence for the rest of your career.

Become the high-quality vet you want to be

August
x2 Small Animal
Graduate Opportunities

Join our team of 19 vets, including certificate holders, and grow with us. Throughout our new graduate programme you'll be based solely at our Veterinary Hospital in Malmesbury, Wiltshire. We encourage decision making and knowledge application, as well as case ownership, with exposure to a wide range of cases. We support your areas of interest.

- Work alongside an experienced mentor within your immediate team to develop both clinical and non-clinical skills.

September
x2 Farm
Graduate Opportunities

We are a friendly and sociable team of 17 farm vets and 5 vet techs, providing a high level of care to our clients, with a real emphasis on preventative medicine, sustainability and herd health. Our team includes 5 certificate holders and a diploma holder.

- Practical experience, with mentors and actively involved line managers to progress your skills
- Teaching on a wide range of topics, developing confident and competent farm vets
