

The  
**GEORGE**  
Veterinary Hospital

**FOR COMPLETE PEACE OF MIND**

## AROUND THE CLOCK SERVICE DELIVERED BY US, NO-ONE ELSE

### WHY YOU SHOULD CHOOSE US

- ✓ We're a long-established Hospital with years of experience, dedicated to the health care of your pet.
- ✓ We're independently owned. Our vets are best placed to help inform what is best for your pet - not a distant board of accountants.
- ✓ Our experienced clinical team of 11 vets is supported by a 14-strong nursing team
- ✓ Our front of house and administrative support teams are focussed on ensuring the best possible experience for you and your pets.
- ✓ We provide preventative health care and packages to help you spread the cost.
- ✓ We are equipped to cater for all in-patient needs should they be required

### BEWARE - NOT ALL VETS' EMERGENCY SERVICES ARE THE SAME!

There is an increasing trend for practices to outsource their emergency work to other service providers leading to your pet being seen by vets and nurses who neither know your pets nor have they access to their clinical notes when it's needed most. You may not realise that some practices offering a "24 hour service" will transfer sick pets to another out of hours veterinary care provider, outside normal surgery hours, until they reopen for business and the pets are transferred back again - something we fundamentally think is wrong!

**We pride ourselves on delivering continuity of care 24 hours a day, EVERY DAY.**

**IT MATTERS TO US AND OUR CLIENTS TELL US IT MATTERS TO THEM TOO**

# WE TAKE CONTINUITY OF CARE FOR YOUR PETS VERY SERIOUSLY

## OUR FACILITIES AND SERVICES

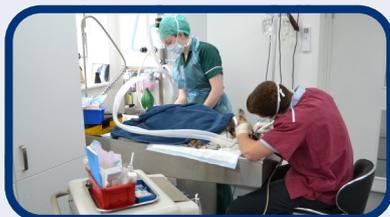

Whether in the hospital or at our branches, we always offer the most up-to-date preventative healthcare advice and are proud of the facilities at our Hospital which was extended in 2016.

2 fully equipped operating theatres

Separate Cattery and Kennels

Dental Suite

Prep room

Diagnostic Imaging Suite

Onsite Laboratory

*We also have branch clinics at Nailsworth, Royal Wootton Bassett and Tetbury*

TAKE A LOOK AT OUR WEBSITE TO SEE HOW OUR CLIENTS FEEL ABOUT US

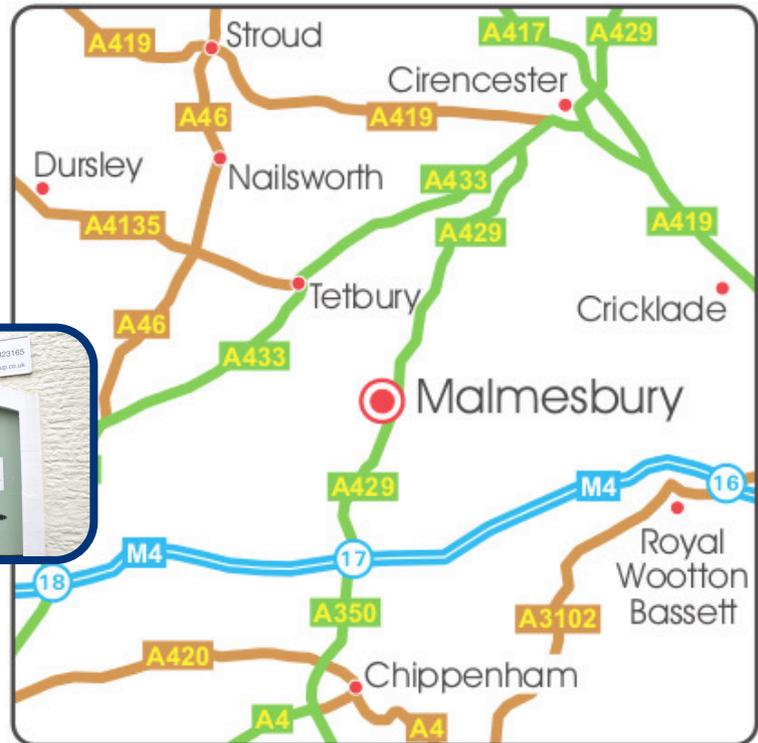

## VETERINARY HOSPITAL, MALMESBURY - 01666 823165

### MALMESBURY - High Street, SN16 9AU

Our tier 3 Veterinary Hospital in Malmesbury was extended in 2016. In addition to their Hospital schedule, our vets have regular clinics at specific branches to ensure that you and your pet build a relationship with them more quickly. In turn, your vet can provide complete continuity of care should your pet ever need to visit the Hospital as an in-patient.

*In any out of hours emergency, rest assured that your pet will be seen by our own vets with instant access to their medical records*

### ROYAL WOOTTON BASSETT - High Street, SN4 7AA

Our branch surgery on the High Street is conveniently located with free on-road parking right outside. We also run a drop in surgery on Saturday mornings. Our veterinary ambulance visits our branches on a daily basis. Our service includes the transportation of your pet from our branch at Royal Wootton Bassett to our Hospital in Malmesbury, when required, and then their return later on, allowing you to collect your pet from the most convenient point.

*For your convenience, this branch is also open on Saturday mornings*

## ROYAL WOOTTON BASSETT - 01793 852458

## NAILSWORTH - 01453 705560

### NAILSWORTH - George Street, GL6 0AG

As the only non-corporate veterinary clinic in the area our advice and health care comes from decisions made within the practice and made by veterinary surgeons, whose prime focus is on the standard of animal care and nothing else.

We offer a full clinical service here with consultations, surgical procedures, dental, X-ray and ultrasound facilities all on site.

***Our Nailsworth clinic is also open on Saturday afternoons***

*All our branches provide the facility to collect medicines for any other animals you may keep too. Whether it's for livestock or you have horses, we have separate veterinary teams dedicated to keeping your animals fit and healthy.*

### TETBURY - Church Street, GL8 8JG

Nestled in the heart of the town and located just 5 miles from our main hospital in Malmesbury, you'll find us directly opposite the church with public parking just around the corner. We're a popular drop in for our regulars when out walking their pets even if veterinary attention is not needed! Our clients often come in just for us to make a fuss of their pet or indeed to treat them to a toy from our shop. There's always a warm welcome.

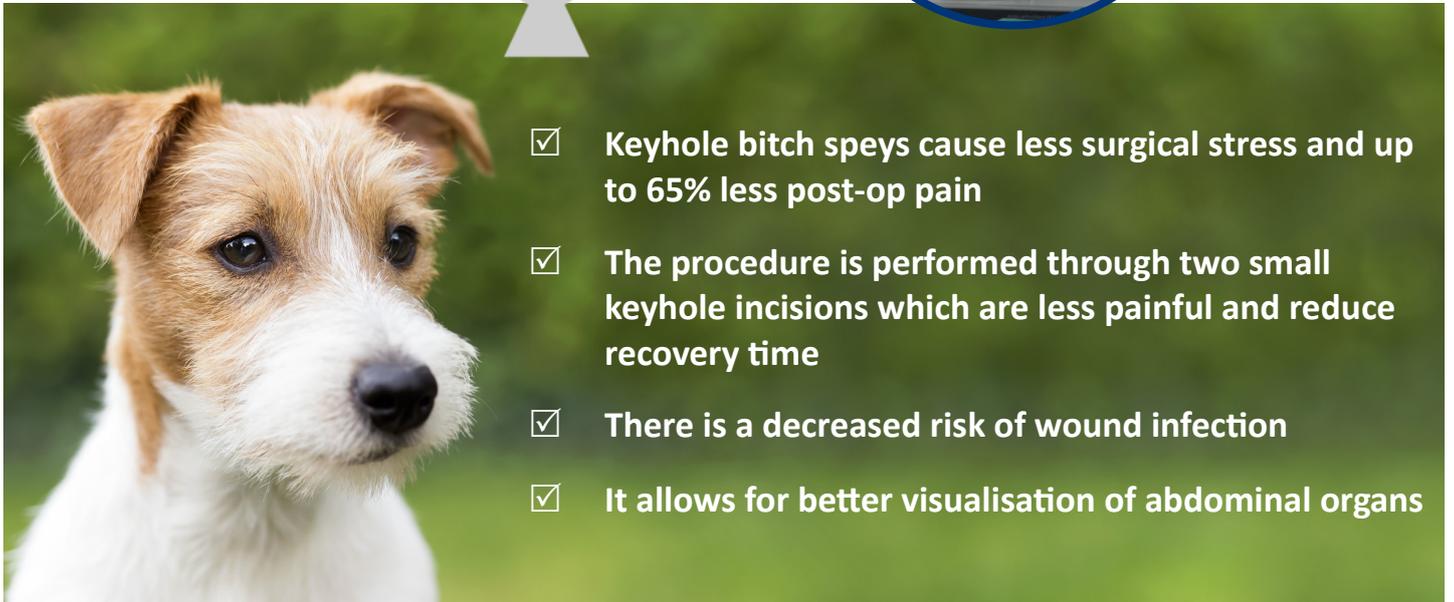

**AS AN INDEPENDENT VETERINARY GROUP WE CAN MAKE THE BEST CHOICE FOR YOUR ANIMAL**

**TETBURY - 01666 503531**

## LAPAROSCOPY

### KEYHOLE SURGERY

The benefits of laparoscopic “keyhole” surgery are increasingly recognised. With the substantial investment in both specialist equipment and the additional training of veterinary surgeons, many practices do not consider this a viable opportunity. However, the benefits for both pets and owners over some traditional open abdominal surgery procedures are clear. Reduced levels of pain for the patient, less risk of complications and a quicker recovery time are just a few of the important considerations for pet owners, and this is something we have been offering to our clients for many years now.

- ✓ Keyhole bitch spays cause less surgical stress and up to 65% less post-op pain
- ✓ The procedure is performed through two small keyhole incisions which are less painful and reduce recovery time
- ✓ There is a decreased risk of wound infection
- ✓ It allows for better visualisation of abdominal organs

WE ARE PROUD TO BE ABLE TO OFFER CHOICE REGARDING CERTAIN SURGICAL PROCEDURES

## LASER TREATMENTS

### LASER TREATMENT

The laser is used as an adjunct to other medical treatments. Our aim is to use a multi-modal approach to improve both your pet's and your own quality of life without putting them through lots of invasive procedures or additional stress. Our therapeutic laser works by emitting infrared radiation at a specific frequency and wavelength which ensures it penetrates to the deeper target tissues.

It stimulates the body's normal cells to do their job faster, to:

- ✓ **Reduce inflammation**
- ✓ **Reduce swelling**
- ✓ **Relieve pain**
- ✓ **Improve/speed healing**

The main thing to know about laser is that it is safe, non-invasive and very well tolerated.

The procedure can be done during a normal consult slot, no clipping of fur is required, and the patient does not need to be sedated. There is no heat nor other sensations generated by the laser so generally the patient remains quite relaxed.

*We are active in your community, whether judging dog shows, advising at school careers days, introducing younger children to pet care in nurseries or hosting local Brownie groups. It's important to us to help educate tomorrow's pet owners and to support local fund-raising events, whenever we can.*

**COMMUNITY MATTERS TO US**

## MAKING THE RIGHT CHOICE FOR YOU AND YOUR PET

*You have choice, but please be aware that not all veterinary practices are the same!*

It's important that you are fully aware of what is on offer to you. We appreciate that what is important to one person is not so to another. Perhaps you are a new pet owner, or maybe you have just moved into the area; either way choosing the best veterinary practice for your pet can be a little daunting - you are about to entrust someone with a much-loved member of the family. Before you make up your mind, why not pop in and meet us. For reassurance, why not take a look at the many heart-warming online reviews left by our clients!

- ✓ We're an experienced, local, independent and 24 hour veterinary team
- ✓ We don't offer introductory discounts and then charge inflated fees for other services
- ✓ We provide free clinics outside of consultations which are run by our nursing team
- ✓ We offer a comprehensive pet health plan called The George Health Club

### The **GEORGE** HEALTH CLUB

Our Health Club provides your pet with:

- ✓ Annual Health Check and Booster Vaccination
- ✓ Six month Health Checks
- ✓ Year-round flea and worm treatment
- ✓ 25% off lifestage diets
- ✓ 10% off all shop purchases
