

When it's time to say goodbye...

The loss of a beloved pet can be devastating for the whole family, whether it is unexpected or a decision taken for all the right reasons based on a poor quality of life. When that time comes, we can arrange for the cremation of your pet should you wish to choose this option instead of a home burial¹.

While it is possible to make your own arrangements, we have a long and trusted relationship with a local business² and so are able to offer a choice of services which include individual cremation should you wish³. Many owners request to have the ashes returned to them and these will be presented in a beautiful casket befitting of a much loved friend. We are always mindful of how difficult these decisions can be to contemplate; please be assured that we are always available to answer any questions you may have now or in the future.

¹ *Pets are placed in individually named bags in cold storage ahead of collection for cremation*

² *Limekiln Farm, Middle Lypiatt, Gloucestershire, GL6 7LR*

³ *Group cremation is also available. Ashes will be scattered in a garden of remembrance*
